

dream

a little...

Stanbrook & Nicholson are very proud to have joined forces with 'Origin', the UK's leading specialist manufacturer of bespoke aluminium folding sliding doors.

As exclusive suppliers and installers of Origin's award winning 'Origin Bi-Fold Door', Stanbrook & Nicholson take great pride in advocating our shared values and parallel ethos, whereby personal service and acute attention to detail are paramount.

Our partnership combines the highest standards of craftsmanship and uncompromising levels of service, and together with industry leading initiatives, we guarantee to fulfil your home's every need to the upmost quality and consideration.

Let **Origin** be the starting point for a whole new way of life...

An Origin Bi-fold Door is more than just a simple door. It is an elegant creator of both space and potential; the architectural realisation of your dreams. While the elegant design and ultra slim aluminium frame profile connects you to the world outside like no other, the precision engineering and high performance components combine to deliver doors of matchless quality.

Imagine your home and your life with a bespoke Origin Bi-fold Door; a world of new possibilities awaits you...

ORIGIN
Elegance without compromise

uncompromising design & quality

space

Origin Bi-fold Doors are the most beautiful aluminium folding sliding doors you can buy.

Their timeless aesthetics, superior engineering and premium quality are only part of their character.

Now use your imagination...

Imagine how your living spaces will be transformed. Imagine that there are no barriers between inside and outside. Imagine gorgeous natural light illuminating your life. Nothing else releases the potential of your home, and the space around it, quite like individually crafted Origin Bi-fold doors.

Suddenly, summer days are longer and winter days are brighter. In just a few moments relaxation is more rewarding and entertaining is more dramatic. At last every part of your home is yours to enjoy and savour.

Our insistence on uncompromising design and quality in every last detail makes them an investment you can rely on to bring beauty and relaxation into your home for many years to come.

peace of mind...

Find out more

Each bespoke Origin Bi-fold Door is designed and manufactured at Origin's impressive state of the art High Wycombe facility, before Stanbrook & Nicholson's expert installers take-over with our first class delivery and installation service.

Exceptional care is taken in the design of every set of doors, for both durability and long-term performance. Only ultra-high quality components, especially designed by Origin, are used in an Origin Bi-Fold Door. Every one of Origin's skilled craftsmen takes pride in creating the best folding sliding doors money can buy.

That's why Origin Bi-fold Doors are guaranteed by us to perform faultlessly for at least 20 years. Each bespoke door set comes with a unique serial number that guarantees the doors at the property for two decades. No other manufacturer of bi-fold doors guarantees their products for this length of time.

So, embrace your new lifestyle with the solid reassurance of an unrivalled guarantee.

...and relax.

Find out more

thermally efficient...

**Your Origin Bi-fold Door will keep you warm when it's chilly,
and cool when it's hot.**

With a Certified U Value of 1.3*, Origin's bi-folding doors surpass the British Building Regulation requirements by a significant margin, keeping your energy bills low and helping you 'stay green'.

Origin's uncompromising design has included the most advanced thermal breaks and weather tight seals, and their locking mechanisms ensure maximum compression for increased weather resistance.

Of course and needless to say, the Origin Bi-fold Doors are fully weather rated by British Standards.

*Origin have had their doors tested and independently certified with Triple Glazed Units, and they are well within the current Building Regulations L1 and L2, even with standard double glazed units.

DESIGNED
FOR THE
BRITISH
CLIMATE

cosily comfortable

Large shoot bolts at the top and bottom

Two deep throw hooks and anti lift bars top and bottom

Eight point locking system

High security hinges

High security lock

High strength frames

Origin Bi-fold Doors combine sophisticated style and elegance with the very latest in high performance and high security multi-point locking systems.

secure

Manufactured and assembled here in the UK, Origin's unique 8 point locking system conforms to demanding, police preferred 'Secured by Design' standards.

Chamfered 20mm linear bolts offer smoother operating when engaging the lock, as well as giving maximum compression for increased weather resistance. Add deep throw 25mm security hooks - the deepest engagement available on the market today - and the lock delivers the best in both security and weatherproofing.

The weakest point of a locking system is often the cylinder. Origin's combination of solid cast Yale security handles with high performance fixing bolts and a British Standards accredited Magnum security cylinder, proven to protect against snapping, picking, drilling and bumping, offers a proven defence that is second to none.

The Origin Bi-fold Door's unique vertical locking shoot-bolt solution completes the full quota of impressive security features, while a stainless steel faceplate and a twenty year manufacturer's warranty ensures durability and resistance against all the elements.

The hinges of a door are often overlooked as a security weak point. Not so on an Origin Bi-fold Door, which is designed to withstand attack and offers little opportunity for even the most determined intruder. The strength and integrity of the door profile itself is also a crucial consideration, and you can rest assured that Origin's master craftsmen have worked hard to strike the right balance between size, strength, and aesthetics to produce door designs that look beautiful yet perform flawlessly to the highest security standards.

Finally, a door can only be secure if installed correctly. So you'll be glad to hear that Stanbrook & Nicholson's expert installers have worked closely with Origin to fully understand and master every last detail of their Bi-fold Doors, which is why we have been chosen for our rigorous attention to detail and workmanship of the kind that guarantees your absolute safety and security.

**“Your
lead time,
NOT
OURS!”**

You’ve thought long and hard about your bi-fold doors. You’ve decided what layout and configuration you want. And more importantly, when you want them.

The way we look at it, you should be in charge of your own deadlines. And that’s what “Your lead time, NOT ours” is all about. So, thanks to Origin's streamline manufacturing process and Stanbrook & Nicholson's first class delivery and installation service, we can now provide Origin Bi-fold Doors practically on demand.

True, most people plan their installation a number of weeks ahead. But if you’re in a hurry, we can now fulfil your order in a matter of days in any one of the popular colours detailed in our brochure.

More recently, Origin have been able to include their four wood grain effects in the ‘Your lead time, NOT ours’ scheme, as well as their striking dual colour choices on a slightly longer delivery timescale.

In conjunction with Origin, we are officially able to provide you with the fastest and most flexible service of any company in the aluminium door and window industry. And it’s yours with Origin Bi-fold Doors.

even

Origin Bi-fold doors sweep away the boundaries between the inside and the outside of your home.

Low threshold designs allow for equal floor finishes inside and out. There are two options available; weathered and non-weathered.

Visually, the effect is stunning. Practically, it creates one space out of two for the ultimate use of your space at home.

A gentle push is all it takes to create your new living space.

The secret lies beneath each lightweight frame section where Origin's unique free-glide roller system makes opening and closing an effortless experience.

threshold design

Find out more

Nothing is more important than safety and comfort in your home. That's why Origin have designed every Origin product with your best interests at heart.

The Origin Bi-fold Door comes with a bespoke 'finger safe' gasket between each door leaf, which ensures that even when they are fully open and folded to their maximum extent, there is no gap for little fingers to get trapped in.

Cleverly the lead door is prevented from slamming or being caught by gusts of wind by a strong magnetic stay which holds the door in the open position.

The threshold design allows the bottom track to be encased in the floor and hides away the free-glide roller system to prevent little fingers from getting trapped.

All in all, a unique combination of safety features.

safety first.

always.

low maintenance. no worries.

As with all of Stanbrook & Nicholson's products, we like Origin, think you should be able to enjoy your bi-fold doors without the worry of time consuming and complicated maintenance.

The nature of bi-folding doors demands precision design and engineering, making timber and UPVC unsuitable materials for maintaining alignment over the lifetime of the product.

Our high grade aluminium is our material of choice because it offers the right combination of strength and weight, allowing for a narrow, more aesthetically pleasing frame.

Origin Bi-fold Doors are finished with the highest grade, longest lasting powder coating available, removing the need for periodic painting and maintenance. This hard wearing finish protects against scratches and colour fading, whilst maintaining the doors original good looks.

Origin's concealed running system is protected from the elements, ensuring the smooth gliding action of your doors for a lifetime.

the perfect canvas...

Origin made-to-measure bi-fold doors completely transform your home and there's no better finishing touch than Origin bespoke blinds.

While bespoke bi-fold doors create a wonderfully light, airy feel to your home, you'll find matching blinds not only enhance the look, but offer a practical way to perfectly adapt your home to different light and weather conditions.

The ultimate in opulence, Origin electric roller blinds discreetly tuck away in a colour-matched cassette within the reveal, remotely operated by wire-free hand-held control or wall-mounted touch screen. They're available in an exciting choice of colours and fabrics to perfectly match your décor, including plains, patterns and voiles.

made in britain

At Stanbrook & Nicholson we advocate the importance of British manufacturing, whilst also guaranteeing excellent customer service before, during and after your purchase.

Every Origin Bi-fold Door is designed, crafted and then assembled at Origin's factory in High Wycombe, to fit and perform flawlessly. Your door is then transported to Stanbrook & Nicholson's factory in the heart of the Surrey Hills, inspected and collected by our professional installers, before we complete the prompt delivery and expert installation of your door.

In the unlikely event that you discover a problem with your doors or the installation, then you can rest assured that a UK based customer service team is available to support you and put things right.

now for something

different...

At Stanbrook & Nicholson we realise that every house and home is different, which is why we are committed to working alongside Origin's UK based design team, your builder and your architect, so that we design the ultimate bi-folding door set-up for your home.

Bays... Corners... Flexibility...

There are instances where a conventional door design is perfectly suitable but in the case that your room layout is slightly more unusual, we will work tirelessly with Origin to create a bespoke configuration to suit your room – whether it be a corner set of doors at a 90° angle or even a bay set, your options on an Origin Bi-fold Door are virtually limitless.

Turn a dark corner into a feature that floods your room with natural light to make even more of your living space.

So perhaps now is the time to see what's around the corner...

colours to suit your lifestyle...

Find out more

Colour? The choice is yours.

Make a statement, or simply match the surroundings of your home. Contemporary or traditional. Whether your taste runs to the subtle or the outrageous, Origin have created a colour palette to satisfy even the most discerning of tastes.

Origin Bi-fold Doors are coated with an ultra durable polyester powder manufactured by 'Interpon', the World leader. With all this choice and the scope to have doors with different colours inside and out, your options are virtually limitless.

Bespoke colour options.

For those wishing to explore a wider range of options, take time to choose from hundreds of bespoke colours, making your Origin Bi-fold Doors everything you ever dreamt of.

We are even able to meet your deadlines with this vast range of choice. Just let us know your outline design ahead of time, confirm the exact sizes, and when you are ready to proceed we will ensure that Origin manufacture your bespoke doors according to your schedule, guaranteed.

Don't let your demanding deadlines compromise your design.

Having selected some of the most popular colour options amongst Stanbrook & Nicholson's distinguished clients, Origin have since kindly made these available on their 'Your lead time, NOT ours' service. Therefore, if you order your doors in any one of these 11 popular colours, then we can guarantee that these will be manufactured, delivered and installed according to your schedule, not ours.

...or go with a natural look.

and handles that are ergonomic and timeless...

Handles do a simple job.

Origin Bi-fold Door handles just do it so much better. The handles of your Origin Bi-fold Doors are its primary point of human contact. They must blend reliable functionality with tasteful aesthetics and real-world ergonomics. When you hold them, they must communicate safety and robustness.

That's why Origin's handles are given the same attention to detail as every other component. Whether you choose premium stainless steel or colour co-ordinated ones, you can be assured of a contemporary handle which offers the same faultless service as the doors themselves.

choose your configuration...

Choosing your Origin Bi-fold Doors has never been easier.

If you know your rough opening sizes, find the nearest opening measurement in the table below and scan down the column to view your possible door options. Alternatively, if you're set on a particular number of doors and you are designing your opening around your doors, select your preferred number of doors in the left column and scan across to identify the opening sizes available to you. Remember every door manufactured by our good friends at Origin, is bespoke and manufactured to your exact sizes and chosen configuration.
