

Window Handle Guide

Stanbrook & Nicholson

Prolinea Espag Window Handle

The Prolinea Espag Handle, is available in cranked and inline versions and features a contemporary new rose and screw cover cap.

The rose cleverly conceals an internal 90 degree stop which prevents gearbox overstressing and, in turn, a colour matched screw cap covers the whole of the rose. This results in a handle with minimal, modern sight lines.

The ergonomic push button assembly provides smooth operation and meets child safety regulations. Finger grips provide optimum comfort when the handle is in use.

The Prolinea Espag handle is available in locking, non-locking and green button egress versions for emergency exit requirements. Precision manufactured from a high performance zinc alloy, the Prolinea Espag handle has been successfully tested to 500,000 cycles – more than twenty times the standard requirement.

All finishes come complete with fixing screws as standard. Each handle is supplied with a ten year mechanical warranty and a two year labour guarantee.

TECHNICAL SPECIFICATION

Pin Length: 35mm

Style: Inline and Cranked, Left and Right Handed

Type: Locking, Non-Locking, Green Button Egress

Camelot Monkey Tail Espag Handle

The Camelot Monkey Tail Espag handle is traditionally manufactured and enhanced by modern technology, to provide a competitive alternative to traditional iron work.

Made from malleable iron, the Camelot Monkey Tail Espag handle presents the ideal solution for retaining the classic look of period windows, whilst its compatibility with contemporary locking systems ensures that it is as elegant as it is secure.

Strength tested to the equivalent of a modern espagnolette window handle, the Camelot Monkey Tail Espag is a particularly popular accompaniment to our Heritage window range.

TECHNICAL SPECIFICATION

Pin Length: 40mm

Back Plate: 20mm x 60mm

Style: Left and right handed

Finishes: Black

Deluxe Monkey Tail Espag Handle

The Deluxe Monkey Tail Espag handle is a unique, traditionally designed Monkey tail handle for all types of espagnolette windows.

Manufactured from 'Zamak' steel, this deluxe handle has the functional advantages of a standard pvcu handle, but with all the aesthetics of a traditional design.

With a fixed 40mm spindle which allows for cutting, its washered knuckle encourages a smoother action and longer-life.

Supplied complete with key and matching fixing screws, the Deluxe Monkey Tail Espag handle is lockable by way of a grub screw in the handle, and comes with a strong Allen key.

Uniquely designed to allow any size of hand to fit comfortably without fear of scraping against window, the Deluxe Monkey Tail Espag handle has proven to be one of our most popular premium choice of handles.

TECHNICAL SPECIFICATION

Overall Size: 150mm x 45mm

Back Plate: 50mm x 16mm

Style: Available for both left and right handed window options

Finishes: Black

Slim Monkey Tail Espag Window Fastener

TECHNICAL SPECIFICATION

Overall Size: 123mm x 45mm

Back Plate: 60mm x 19mm x 8mm

Style: Available for both left and right handed locking options

Finishes: Black

Similar to our Camelot and Deluxe Monkey Tail handle options, this Slim Monkey Tail Espagnolette Window Fastener offers the traditional look with a very modern application.

However, where it differs from its peers is with its slim-line fixing plate, which allows it to be fitted onto any modern espagnolette rod or stand-alone centre lock, with utmost ease.

With its 7mm fixed spindle, the Slim Monkey Tail Espagnolette Window Fastener can be locked by way of a grub screw, intelligently hidden underneath the handle.

Furthermore, this aesthetically pleasing fastener is protected with a durable, corrosion-resistant finish, ensuring that its toughened exterior is suited to even the most adverse of weather conditions.
